Property Description

This 13,647 square meter lot is located on Beachfront in Junquillal. The road up to this concession land is completely paved. It's really beautiful, with a scaled topography without being too steep, which allows the possibility to develop different heights in the property without them blocking each other's view of the ocean. This property is located in Playa Junquillal, and the road is paved all the way to the entrance. The size is 13,647 square meters. It is concession lands that have to be renovated this year 2022, but the property has always complied with its obligations and it's a simple and routine procedure for which we foresee no problem at all. We can accept the renewal procedure without a problem. The property has a cost of \$1.3 million.
