Property Description

Casa Kapaycha is a thoughtfully designed residence in Sámara Woods, blending architectural quality, environmental sensitivity, and modern comfort. The home offers 211 m² (2,271 sq ft) of interior living space with full block construction and a double-insulated roof with an air chamber for excellent thermal performance. Positioned to maximize natural light while avoiding direct sun, the home remains naturally cool and inviting year-round. The interior features 4 bedrooms and 3 bathrooms with vaulted ceilings that enhance openness and airflow. The main living area includes a large built-in sofa with custom cushions and flows into a beautifully appointed kitchen with granite countertops, a generous island, stainless steel appliances, handmade light fixtures, and custom hardwood cabinetry. A spacious loft overlooking the living area functions well as a home office, studio, or bonus room.
